SOFTWARE DEVELOPER

CAREER SUMMARY

I'm a Computer Science graduate from Vancouver Island University with strong fundamentals in web development. I have a proven track record of developing and deploying full stack applications with user-friendly interfaces and robust backends employing various front-end and back-end technologies. I'm an enthusiastic hands-on learner and I'm excited to bring my skills and drive to contribute to a forward-thinking company.

TECHNICAL SKILLS

- Programming Languages: JavaScript, Python, C++.
- Web Development: React, Next.js, HTML/CSS, Tailwindcss, Flask, Node.js, Express.js, Auth.js.
- Databases and ORMs: PostgreSQL, MongoDB, SQL/NoSQL, PlanetScale, Prisma.
- Tools and Platforms: Git, GitHub, VS Code, Firebase, Vercel, RDS - AWS.
- Design Tools: Photoshop, Illustrator, Figma.

RELEVANT PROJECT WORK

Featured Project **DCPLN. -** https://dcpln.vercel.app/   Completed: December, 2023

~ Code : https://github.com/Sah3j/dcpln

~ Stack: Next.js, Tailwind, Flask (Python), PostgreSQL, RDS-AWS, Vercel

- Developed with Next.js and styled with Tailwindcss resulting in an intuitive and visually appealing user interface.
- Implemented a robust backend using Flask and utilized PostgreSQL for efficient database management.
- Leveraged Amazon Web Services (AWS) to host the PostgreSQL database on RDS, guaranteeing high availability and reliability.
- Enhanced application security by integrating JWT authentication, safeguarding user data and access.
- Successfully deployed the application on Vercel, optimizing performance and user experience for a seamless online presence.

Dayflow - https://dayflow-app.vercel.app/   Completed: August, 2023

~ Code : https://github.com/Sah3j/dayflow-app

~ Stack: React, Next.js, Auth.js, Prisma, Planet Scale, Tailwind, Vercel

- Worked with Next.js framework and its various features, server-side components, dynamic routes, and data fetching.
- Implemented authentication and authorization using Auth.js with various providers.
- Set-up database on Planet Scale and displayed familiarity with SQL queries in Planet Scale web console.
- Obtained proficiency with Prisma while connecting front-end to the database.
- Styled application using Tailwind CSS and Deployed on Vercel.
